10/15/95

Dear Mr. Macmillan,

Greer and Kellerman are both dead. Both retired before they died. Greer developed a bleeding ulcer of his ulcer he had bold and he was retired for that reason. I do not know the cause of Kellerman's death, only that I8d heard he had died in Florida or saw an obit in the paper. That was, however, after the time of the HSCA because it did interview him as you'll see in the Afterword of NEVER AGAIN!

McDonald sas one of the most gifted and uninhibited liars I ever met. He was probably the first in rank of them. With the straightest face and greatest sincerity.

Any of the books you may want that JFK Lancer does not have you may be able to get from The Last Hurrah Book Store, 937 Memorial Ave., Williamsport, PA 17701.

I envy your father, who has five years one me.

We here have his and her fanes.

Best wishes,

Harold Weisberg
